LITERACY CHECKLIST: GRADES 3 & UP … write the time(s) at which the activity started and ended

#		Time(s)	Min Ttl	Observation Notes:
	Phonemic Awareness Activities Students learn to manipulate phonemes.			__ Start Time: _____ End Time: _____
1	Teaching phonemic awareness in small groups			
2	Instruction focuses on 1-2 types of phoneme manipulation			
3	Instruction on how to manipulate phonemes with letters			
	Phonics Activities Students learn to use letter sound relations to read and spell words			
4	Analogy phonics (learn "-and" then read "band," "sand")			
5	Analytic phonics (instruct students in letter-sound relations in known words, students learn whole word units)			
6	Embedded phonics (learn phonics in text reading- more indirect, incidental learning			
7	Phonics through spelling (students learn to spell words in segments, phonemically)			
8	Synthetic phonics (explicit instruction in letters to sounds and then to blend to words)			
9	Use of decodable texts to practice reading skills			
	Instruction in Fluency			
10	Guided repeated oral reading (read text aloud with teacher feedback)			
11	Independent silent reading (students read on their own with minimal guidance)			
	Instruction in Vocabulary			
12	Pre-teaching vocabulary words			
13	Storybook readings (repeated, interactive, elaborated)			
14	Flash cards			
15	Word identification (teaching sight words)			
16	Considerate texts (include redundant information or are rich with contextual information to clarify definitions)			
17	Clarify vocabulary task (students are taught parts of a definition)			
18	Group reading activities (reciprocal peer tutoring)			
19	Multiple exposures to vocabulary words			
20	Keyword method (students use keywords and images to remember the words)			
21	Explicit strategies instruction (feature analysis, morphology)			
22	Prompt students for vocabulary definitions while reading			
23	Graphic organizers (Venn diagrams, timelines), semantic maps			
24	Use technology for vocabulary instruction (software, multimedia, hypertext)			
	Development And Activation Of Background Knowledge	**Time(s)**		
25	Introduction and discussion of the topic			
26	Review of relevant vocabulary definitions			
27	Pre-reading activities (brainstorming, concept maps, diagrams)			
28	Free recall, word association			
29	Props, use of objects, visuals (pictures, illustrations, multimedia)			
30	Writing activities as a pre-reading exercise			
31	Review of text structure and organization			
32	Teachers provide analogies/anecdotes			
33	Advance organizers (outlines, maps. visuals)			
	Instruction in Comprehension Strategies			
34	Previewing and predicting			
35	Comprehension monitoring, re-reading for understanding			
36	Cooperative learning (peer or reciprocal tutoring, group work)			
37	Graphic semantic organizers (visual representations such as concept and story maps)			
38	Question answering (students answer questions, prompts)			
39	Question generation (students come up with questions)			
40	Story structure (learn to use structural cues such as titles, format)			
41	Making connections (e.g., text to text, text to self, text to world, in-the-text) PLEASE NOTE TYPE			
42	Summarization			
43	Extensions and applications (e.g., writing to extend or apply understanding of text)			
	Time for Independent Reading Practice			
44	Sustained silent reading (in class)			
45	Recreational reading (outside class)			
	Oral Language Development	**Time(s)**		
46	Independent oral reading practice			
47	Guided oral reading practice (teacher corrects miscues, provides guidance)			
48	Listening (books on tape, teacher reads)			
	Non-Instructional Time	**Time(s)**		
49	Time not spent on academic activities (transitions, behavior management, etc.)			

Teacher:_____ School:_____ # of students: _____ Observer: _____ Date: _____ Start Time: _____ End Time: _____

POST-OBSERVATION CHECKLIST: GRADES 3 & UP

	Student Motivation and Engagement	Obs	Not	N/A	Observation Notes:
1	Student effort is rewarded.				
2	Focus is on task mastery				
	Mixture Of Texts Used In Instruction				
3	Expository (non-fiction, informational text)				
4	Fictional text and prose				
5	Magazines, newspapers				
5	Electronic texts (including hypertext)				
	Text Materials (Ranging In Difficulty) Are Available				
6	Independent level (student can read on own)				
7	Instructional level (student can read with assistance)				
8	Not frustration level (student cannot read even with assistance)				
	Students Read in Authentic Materials				
9	Current events				
10	Texts are culturally relevant and interesting				
11	Multiple sources of information (print, news, books, on-line)				
	Collaborative Student Learning In Content Areas				
12	Reciprocal peer tutoring				
13	Heterogenous ability grouping (mixed ability groups)				
14	Homogenous ability grouping (similar ability groups)				
15	Cross-age tutoring				
	Technology Used To Leverage Instructional Time				
16	Students have access to computers (in lab or classroom)				
17	Reading software provides practice in reading skills				
18	Computers used for word processing				
19	Use of multimedia books and hypertext				
	General Observations				
20	Reading instruction in content area materials				
21	Students are taught in whole groups and small groups				
22	Reading instruction is direct, explicit and systematic				
23	Writing activities are incorporated into instruction				
24	Appropriate assessments for reading progress monitoring and for diagnosis				
25	Extend literacy activities outside of the classroom (after-school programs, encourage parental involvement, etc.)
