TEXT REVIEW QUESTIONNAIRE

FOR TEXTS: *Please use the following questions to guide your review. Please circle YES, NO, or NOT SURE. Please elaborate on your responses as much as possible (feel free to use the back). You may also suggest revisions on the text itself (please use Track Changes).*

1. **(Primarily for Teachers) Do the texts fit with the type of texts you use within your school/district reading curriculum?** **YES NO NOT SURE**

   Comments:

2. **(Primarily for Discourse Experts) Are the texts cohesive enough to allow for understanding by struggling readers, while still allowing for the generation of inferences?*** **YES NO NOT SURE**

   Comments:

3. **Are the topics of the texts age appropriate *and* likely to be interesting to 4th-grade students?** **YES NO NOT SURE**

   Comments:

4. **Are the texts sufficiently challenging/demanding for the generation of inferences?** **YES NO NOT SURE**

   Comments:

YOUR RECOMMENDATION FOR THIS TEXT *(PLEASE CIRCLE ONE)*:

USE AS IS **USE WITH REVISIONS**

**Note*: A Coh-Metrix analysis will be included for Discourse Experts' inspection. Within Coh-Metrix, we will use settings that analyze cohesion of texts (e.g.., genre setting = narrative) and an age-appropriate statistical representation of word and text meaning (e.g., Latent Semantic Analysis Space = 347) to determine levels of cohesion within each text. Specifically, all texts will be examined for general and causal cohesion using the measures of adjacent argument overlap and the ratio of causally-related particles to causal verbs, respectively (Graesser, et al., 2004).

QUESTION/RESPONSE REVIEW QUESTIONNAIRE

FOR QUESTIONS: *Please use the following questions to guide your review of each question. Please identify questions that do NOT fit the criteria and elaborate on your responses as much as possible (feel free to use the back). You may also suggest revisions to the questions themselves (please use Track Changes).*

1. **Are the questions likely to generate causal inferences that are important to the student's understanding of this text (for example, would they be likely to generate a causal connection by prompting a link to previous text information in the current episode or in previous episodes that have causal relevance to the current event)?**

   Comments:

2. **Are the locations of the questions within the text likely to generate causal inferences that are important to the student's understanding?**

   Comments:

3. **Are the questions worded clearly and unambiguously?**

   Comments:

4. **Do you agree with the possible "appropriate and inappropriate" responses that we generated? Do you have suggestions for other possible responses?**

   Comments:

5. **Do you agree with the possible key word prompts that we have provided so that interventionists can provide feedback? Do you have suggestions for other possible key word prompts?**

   Comments:
