Student PhD Checklist – Requirement/Procedure		Complete Date
Web resources for forms/processes/policies: Curriculum & Instruction (CI): http://www.cehd.umn.edu/ci/Current/PhD/default.html Graduate School (GS): http://www.grad.umn.edu/students/doctoral/index.html One Stop: http://onestop.umn.edu/ Graduate Studies Coordinator: 125H Peik Hall, cigs@umn.edu		
1	Once admitted, contact assigned adviser to discuss course registration and register before to first day of term of admission. See admission letter for account initiation and registration instructions. See One Stop for academic calendar.	
2	Meet with adviser at least annually to discuss program and progress. Submit **Annual Progress Report form** to adviser for comments & signature; then submit to the Graduate Studies Coordinator for recording and placing in student e-file. Mailed to students annually in March – due May 15.	
3	After completing about 30-36 course credits, meet with adviser to finalize program and prelim committee members. Check with people to see if they're willing to serve on your committee. Then submit the C&I Ph.D. Program Planning Form to the Graduate Studies Coordinator for review	
4	After receipt of approval email, submit signed Graduate Degree Plan form to Graduate Studies Coordinator for DGS signature and submission to GS	
5	Once Graduate Degree Plan has been filed with GS, electronically Assign Preliminary Oral Examining committee	
6	After completing program coursework (or close to completion), work with adviser and committee members to complete Preliminary Written Exam (per track guidelines on CI website) After completing Prelim Written Exam, faculty adviser must email the committee's decision to Graduate Studies Coordinator for entry into GS electronic form for recording prelim written exam results	

7	Schedule Preliminary Oral Examination with adviser & committee members. Once date is set, electronically schedule with the Graduate School – at least one week before exam date (CI staff can schedule a room for exam). The Graduate School sends the Prelim Oral Exam form to committee chair via campus mail **OR** students may pick up at Graduate School (160 Williamson) prior to Prelim Oral Exam	
8	Submit signed Preliminary Oral Exam form to Graduate School (160 Williamson) within one day of completing exam At this point, the preliminary examination committee has completed their responsibilities and the student officially becomes a PhD candidate	
9	Work closely with adviser to prepare draft of thesis proposal and determine Final Examining Committee. Student checks with faculty to confirm that they agree to participate on the Final Examining Committee. Once members are confirmed, electronically Assign Final Examining Committee with Graduate School	
10	Students convene Readers of the Final Examining Committee for Thesis Proposal Meeting. At the end of the meeting, Readers sign the C&I PhD Thesis Proposal Meeting form. This confirms that they approve of your proposal. Submit signed form to Graduate Studies Coordinator to place in student's e-file	
11	If applicable, file Human Subjects forms to IRB to request approval to conduct dissertation research.	
12	No later than the term before which the final exam (defense), electronically request the Graduation Packet from Graduate School. This contains Graduate Application for Degree form and Reviewers' Report form	
13	Schedule Final Oral Examination (defense) with adviser & committee members. Once date is set, electronically schedule with the Graduate School (CI staff can schedule a room for exam)	
14	At least one week before defense, notify Graduate Studies Coordinator about date/time/location of defense and email title and abstract (for publicity of first hour of defense, which is open to public).	

15	Submit **Application for Degree form** (in Graduation Packet) to One Stop by the first business day of the anticipated month of graduation.	
16	Submit completed thesis to readers/reviewers; allow at least two-three weeks before requesting signatures on the **Reviewer's Report form** (in Graduation Packet). Readers' signatures indicate your dissertation is ready for defense. Once signed, submit to Graduate School When Reviewer's Report form is submitted, Graduate School will release the Final Exam form to committee Chair - sent by campus mail if at least one week is allowed, otherwise, student must pick up form from Graduate School	
17	Hold Thesis Defense/Final Examination. Following defense submit the signed Doctoral Final Exam Report form to Graduate School within 24 hours of completing exam	
18	Electronically submit dissertation by the last business day of anticipated month of graduation. Consult Graduation Packet (or Graduate School website) for formatting guidelines and other paperwork to submit in order to complete degree	
19	CEHD Commencement: Announcement is sent to all students in March and commencement is held in May
