RE: Decision regarding the future of the Adult Basic Education initial/additional licensure program.

We are writing to announce an important decision concerning a licensure program in the Department of Organizational Leadership, Policy, and Development (OLPD). Specifically, we have decided, effective immediately, not to admit new students to the Adult Basic Education (ABE) initial/additional licensure programs. This decision *does not* impact the Adult Education M.Ed. The decision not to admit new applicants into the ABE licensure program was made after careful departmental, program area, college review, and consultation. This was a difficult decision to make because of the important efforts and commitments of faculty and staff over the years, who have worked tirelessly to address a need in our community.

As we move forward, admissions of new students will be immediately suspended for the licensure programs. Currently enrolled Adult Basic Education licensure program area students will be carefully advised to enable them to complete their licensure and degree program (if applicable) according to internal and external deadlines. OLPD will provide needed coursework with faculty who meet state licensure qualifications and work with CEHD's Office of Teacher Education (OTE) to ensure enrolled students finish in a timely manner. Program faculty will work with individual students and OTE to outline a written plan to ensure that this occurs. The college's Office of Teacher Education will also recommend current students who successfully complete licensure program requirements by the June 1, 2019, deadline. The licensure program will close officially as of June 30, 2019, with the Board of Teaching/state level approval for the program.

In conclusion, faculty and staff within the University of Minnesota's Adult Basic Education initial/additional licensure program have educated and placed many successful adult educators in sites across the State of Minnesota. Further, U of MN experts in ABE are committed to their former and current students, state department staff, and constituents. Our colleagues reaffirmed their pledge to continue to engage in initiatives that continue to focus on adult basic education efforts in Minnesota. We have no doubt that they will continue to lead and have impact on the lives of others.

Sincerely,
Jean K. Quam, PhD, Dean, CEHD
Deborah R. Dillon, PhD, Associate Dean, CEHD
