Counselor Education Subplan

This sub-plan is limited to students completing the program under Plan B.

The Counselor Education (CE) track subscribes to the scientist/practitioner model, which assumes that scholarly inquiry and counseling practice are interdependent and complementary. The track's primary mission is to prepare counselors to bring a well-trained professional's attitude and interest to bear on the application of counseling and educational knowledge. In addition to becoming skilled clinicians, students learn to be critical consumers and producers of both quantitative and qualitative research. Emphasis areas: clinical mental health, higher education, and school counseling.

The CE track requires 60 credits, a portfolio, and written final examination.

All coursework must be taken on the A/F grading basis with a minimum cumulative GPA of 3.0; no more than 2 courses graded below B-; and no more than 6 credits of incomplete grades.

Educational Psychology Core Courses

Take the following courses:

- EPSY 5261 - Introductory Statistical Methods (3.0 cr)
- EPSY 5221 - Principles of Educational and Psychological Measurement (3.0 cr)
- EPSY 5157 - Social & Developmental Psychology of Education (3.0 cr)
